Wickford Middle School, Art Teacher Alicia Skaggs

LABMF Poster Contest Grant Project

Mrs. Skaggs collaborated with the two Health teachers to support their teaching of "dating violence" during health class. She developed an excellent slide show explaining the project to the students to help them create their posters with the theme "Qualities of a Healthy Relationship". "After narrowing the posters down to 10 from 100s, the staff took part in the voting and we have a 1st, 2nd, and 3rd place and 2 honorable mentions. Posters were displayed throughout the school. We will be presenting the certificates, and prizes on Wednesday. It was a very successful project and we are so grateful for all of your support and generosity."
